

**TOP PACKAGING  
TRENDS FOR 2022**

# **100% Biodegradable Packaging Solutions**

Green packaging that safeguards the environment without creating microplastic & meets major international food standards.

## Building Sustainability Into Our Packaging

Takeaway containers equate to around 3 million tonnes of packaging waste each year. As the coronavirus spread, recycling also took a nosedive. Sustainable packaging will become a priority again.<sup>1</sup>

Choose Cycle+ Take-out box :

Fully biodegradable eco friendly food packaging products have the strength, safety and durability of conventional packaging. Cycle+ is certified to **BSI PAS 9017** compliance as a **Biodegradable** material and can also be **Recycled** and **Reused** like any other PP product.

### WHY Cycle+ IS A GOOD SOLUTION?

- **Tamper Evident**

**85%**

of customers would prefer their food was delivered in a tamper evident container.<sup>2</sup>

- **Eco-friendly**

**36%**

of consumers are willing to pay an additional charge for eco friendly take-out packaging.<sup>3</sup>

- **Increase Customer Satisfaction**

**57%**

of consumers agree that packaging makes a big difference in takeout food quality.<sup>4</sup>

Biotransformation and Next-Gen Biodegradation technology provide a 100% environmentally friendly solution that safeguards reputational risks from uncontrolled disposal of branded plastic waste

- Protect Brand Reputation
- Demonstrate High Ethical Standards
- Positive Environmental Impact

- **Patented Safety Lock**  
Broken Seal Easily Visible.
- **Secured Packaging**  
Avoids Intentional Contamination.
- **Microwave safe**  
Reheatable and refrigerator friendly, these containers offer convenience and style.
- **Leak-resistant**  
Premium leak-resistant lids prevent spillage during transit.
- **Stackable**  
Stackable for performance in merchandising, prep and transport.
- **100% Recyclable**  
Easy sorting and recycling.

# Tamper Evident Packaging

SPI constantly innovates to meet the increasing demand for takeout, delivery and food safety during COVID-19 pandemic

- Raised tabs & message warn consumer
- No cracking or sharp edges to cut fingers
- A break in the tamper evident seal is clearly visible
- Put your customers' mind at ease by offering tamper-evident packaging

## Biodegradable tamper proof take out container

Item No.	HC66	HC88	HC96	HC99
Description	6" x 6" Hinged container	8" x 8" Hinged container	9" x 6" Hinged container	9" x 9" Hinged container
Capacity	21 oz.	45 oz.	44 oz.	56 oz.
Dimensions (L x W x H) in/mm	6.19" x 6.13" x 2.53" 157 x 156 x 64	8.29" x 8.36" x 2.75" 211 x 212 x 70	10.04" x 6.88" x 2.76" 255 x 175 x 70	9.05" x 8.86" x 3.05" 230 x 225 x 77
Case Pack	200	150	150	150
Case Cube (ft3)	2.89	3.86	3.96	4.45
Material	PP	PP	PP	PP

## Globally Certified & Tested

Food Safety Approved in US & EU Markets

### ✓ Compliant With Biodegradation Standards

Complies with British Standard Institution BSI PAS 9017:2020 - Biodegradation of polyolefins in an open-air terrestrial environment and can be recycled.

### ✓ Eco-Toxicity Tested

- Land acute and chronic effects on earthworms and plants (Complies with OECD 207 & 222 standards)
- Fresh water acute and chronic toxicity on Daphnia (Complies with OECD 202 & 211 standards)

### ✓ FDA & EU Approved Food Contact Plastic Packaging

- Food contact materials approved for use in plastic packaging in the U.S. market (GRAS statement)
- Complies with EU food contact regulations (EU NO 10/2011)
