

South Plastic Industry

# Plastic Food Packaging Manufacturer

✉ [contact@southplastic.com](mailto:contact@southplastic.com)

# Your One-Stop Food Packaging Partner

South Plastic Industry Taiwan is the expert of thermoformed food packaging since 1983. From HIPS, PP, PET & UCPP, all SPI products comply with the highest quality standards of BRC, HACCP and ISO.

Specializing in custom & private label packaging design, **SPI** embraces innovation from composite plastic material development to commercializing into mass production. Pursuing global clients with upmost service, South Plastic Industry, as the key role, contributes to the food packaging industry in Taiwan.

1983

Started food packaging production targeting Japanese market.

1992

Sited in Pingdong as manufacturing plant.

1999

Became a major supplier for C-stores & supermarkets in Taiwan.

2003

Transformed as South Plastic Industry Co.

2005

Certified by ISO9001

2011

National Golden Torch, symbolized as pioneer & leading enterprise.

2012

Expansion of plant with new facilities

2013

by Taiwan top chain C-store as a premium Supplier

2014

The Pingdong plant is operational and complies with HACCP and ISO22000

2015

Business started in North America with a granted Safety Pack patent.

2016

BRC global standard certification completed

2017

ISO14001 certified

2018

Safety Pack upgradation 2.0

2019

- ISO45001 certified
- UCPP sheet development finished

2020

Developed the 3rd generation of safety pack packaging

2021

Manufacturing Eco-friendly packaging

2023

Awarded SCS certified post-consumer recycled PET Food Packaging

2024

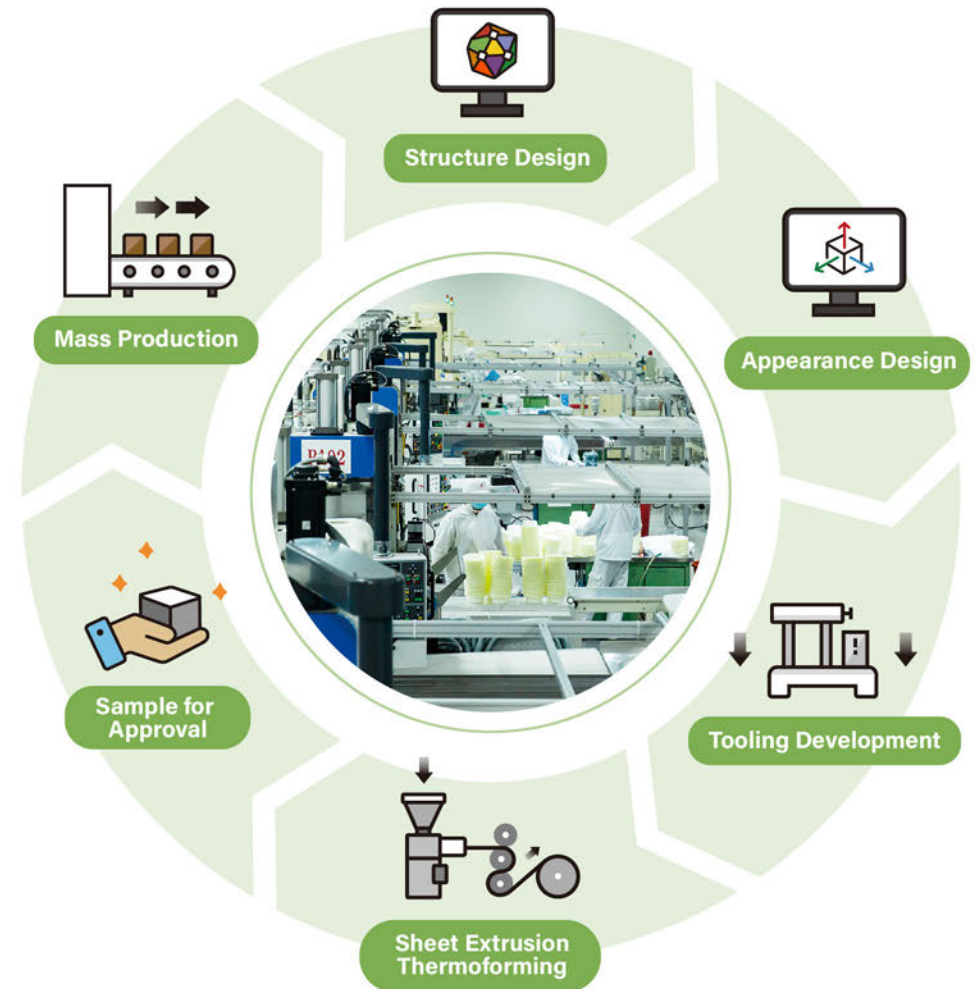

Awarded (GRS) Global Recycled Standard Packaging Certificate

# Production

SPI state-of-the-art facilities and industry leading SGS-certified processes set the standards others aspire to in global food packaging.

Our in-house expert R&D, prototyping, testing, masterbatch mixing, extrusion, mass production and supply chain management enable innovation and cost-saving at all stages of the product life cycle.

- Professional Design and Rapid Prototyping
- Cost-Effective With No Compromise on Quality
- Turnkey Solutions for Your Packaging Requirements

# Premium Quality, Certified Production Every Step, Every Product

- Efficient Supply Chain Integration
- From sheet to product finishing all in-house
- HIPS, PET, PP, UCPP sheets expertly extruded in-house
- Uninterrupted production for maximum efficiency
- Automated production lines with air shower clean room

# What is respíre™

## Breathing New Life into Plastics

respíre™— a name that speaks to renewal and hope. Inspired by the French word “**respire**,” meaning “**to breathe**,” this innovative product line represents a fresh breath of life for plastics. With a focus on renew, reuse, and recycle, respíre™ embodies South Plastic’s (SPI) unwavering commitment to sustainability.

# respíre

“ respíre™ Nature, respíre™ Life. ”

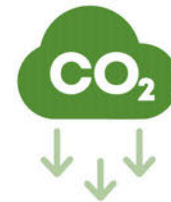

*Our manufacturing facility has a private solar power system*

## Powered by The Sun

We installed 357kW of solar panels at our main site, showcasing our commitment to renewable energy and carbon reduction through continuous operation and expert maintenance.

Carbon Savings Each year

**200** Tons

Equivalent to Planting Nearly

**18,141** Trees

Energy Output Equivalent

**100** Households

# SCS Recycled Content Certified rPET Food Packaging

SPI has awarded \*GRS and SCS Global certificates of \*PCR PET food packaging with PCR contents from 10% to 100%. SPI implements \*PIR Plastic production to reduce the amount of virgin material and waste generated.

Reusing in-line production scrap and incorporating PCR PET into the food packaging reduce carbon footprint and environmental impact to realize the goal of sustainability.

\* GRS: Global Recycled Standard

\* PCR: Post-consumer recycled    \* PIR: Post-Industrial Recycled

# Corporate Philosophy

Packaging that keeps food fresh and secure from tampering makes consumers happy. SPI focuses on consumer preferences and requirements to create packaging that is more attractive and promotes consumer confidence.

SPI is passionate about packaging design, engineering, testing and manufacture. As a vertically integrated company we apply our enthusiasm and expertise every step of the way from initial consultation with our customers through to mass production.

Our patents demonstrate our expertise in research and innovation. For nearly four decades we have been innovating & adapting our products to match changes in technology, materials, and consumer lifestyles.

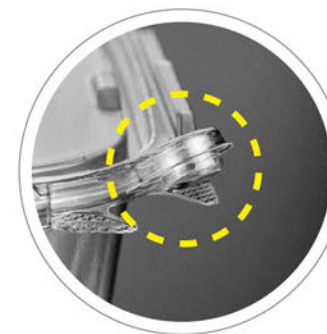

*Our Tamper  
Proof Packaging  
Is Different*

## Secure. **SafetyPack**<sup>®</sup> Sustainable.

Our patented **Safety Pack**<sup>®</sup> lock provides clear, **tamper-evident protection** without tear-off strips, shrink bands, or labels—enhancing security while reducing waste. Designed for convenience, it keeps products safe, secure, and easy to use.

## Ultra Clear, You Get What You See

SPI has the innovative development of ultra-clear material for food packaging: New PP Formula that is as clear as PET. SPI's Ultra Clear PP, in addition to the PET-like transparency, has many more advantages as the easily-recyclable high-performance plastics.
